

Masterclass in Rural & Remote Medicine Kangaroo Island, SA 15TH & 16TH November 2013

Immerse yourself in a collegiate atmosphere where you can kick back and take your medical skills and knowledge to a higher level. Come to Kangaroo Island and pick up some 'pearls' to meet the big challenges that rural and remote medicine throws at us. A group of experienced and savvy specialists will provide a top class resource for us to move to the next level covering off on difficult airway management, different resuscitation protocols, obstetric emergencies, chest-head-abdominal trauma and control of acute psychiatric developments. There will be a trauma Surgeon, an O & G, the Professor of Paramedics, a Psychiatrist and a couple of guys from MedStar as well as the experience you bring to the group. Experienced rural GP's will facilitate the 2 day show and we will celebrate this Masterclass with a great networking dinner. Tim Leeuwenberg has identified some areas that we need to look at and discuss and likewise early registrants will be asked to list the confronting issues they would like unravelled.

This Masterclass will enable a practical opportunity for you to get questions answered, develop new skills and implement protocols to assist in your region.
